

RESPONSIBLE GAMBLING POLICY

Chromabet is aware that gambling is a form of entertainment to a large majority of people, however Chromabet is conscious of those who can become vulnerable to problem gambling. Chromabet is therefore committed to provide a responsible gambling service, where clients have access to online tools so they can exclude themselves or limit their betting activities. Our betting operations are governed by this policy and a code of practice.

What is Responsible Gambling?

Responsible gambling for individuals means:

- They may gamble for pleasure and entertainment but are aware of their likelihood of losing and understand the associated risks,
- They exercise control over their gambling activity, and
- Responsible gambling occurs in balance with other activities in their lives and is not causing problems or harm for themselves or others.

Responsible gambling for the broader community, including gambling providers, governments, and sporting associations, requires:

- Shared responsibility for generating awareness of the risks associated with gambling,
- Creating and promoting environments that prevent or minimise problem gambling; and
- Being responsive to community concerns around gambling.

What is Problem Gambling?

Problem gambling occurs when a person spends more than they can afford, betting for a lot longer. After gambling the person feels anxious, guilty or just uncomfortable with the situation.

The negative consequences of problem gambling may include:

- The punter suffering excessive financial losses relative to the gamblers means (including unpaid household bills, credit card debts or loans);
- Adverse personal effects on the punter (such as anxiety, depression or stress) and/or their family;
- Adverse effects on employment and work performance (including missing work or having trouble concentrating at work);
- Losing the ability to maintain a healthy and balanced lifestyle due to spending an excessive amount of time gambling;
- Regretting the amount of time lost or wasted due to gambling; and Other costs which are borne by the community.

To assist with gambling responsibly we can help you by:

- Implementing Pre-commitment Limits – we can set a weekly deposit limit for you – please email us and we can set this up for you
- Temporarily suspending your account if you feel it is getting the better of you at a certain moment in time

Below are some tips for ensuring your gambling does not start affecting you negatively:

- Separate work and gambling – don't gamble at work
- Take a note of the length of your gambling sessions
- Do not look at gambling as an alternative source of income
- If you're behind, don't chase, it will only get worse
